Dear President,

the Members of the AEMH-Board, attending the 59th AEMH Board Meeting 15 January 2011 in Paris, took notice of the alarming situation of the medical profession and are deeply concerned.

They hereby wish to express their full support for the Czech Medical Chamber and Czech Hospital Physicians in their claim to perform their tasks in full respect of International Labour Laws and the European Working Time Directive, which is a prerequisite to good quality healthcare and patients' safety.

We wish you successfullness in your legitimate fight for decent working conditions and remain alert on the evolution.

With kind regards

**Dr Joao De Deus
